U. S. Grant wants to be Senator from California.

Ohio collects over \$4,000,000 in license from 10,789 saloons.

Thomas Johnson, drunk, shot and seriously wounded Mrs. Lulu Jones, and then killed himself in St. Louis.

Owing to the increase of madness among dogs in Vienna and South Austria, all exhibitions of dogs and cats are prohibited.

Natale Assopardi, a Maltese, who celebrated his one hundredth birthday recently, still rises at 4 o'clock and goes to Church every morning.

A commercial agent from Japan, Taikichi Shimizu, is in California to make an experimental shipment of oranges as a commercial enterprise.

Miss Florence Worden the actress will christen the torpedo boat destroyer Worden, to be launched in September, and named for her uncle, Rear Admiral John Larimer Worden.

In Japan very thin, transparent paper is used instead of glass in windows—not that glass is not as plentiful and cheap as in this country, but that the Japanese desire the paper to filter the air they breathe.

A \$50,000 monument is to be erected to the memory of Baron and Baroness De Hirsch, Jewish philanthropists, in New York, an organization, with General Thomas R. James as President, having been formed.

A hanging overhead electrical railroad for London, similar to that in use in Elberfeld, Germany, is projected by a group of German, American and English financiers. A Parliamentary concession will be asked to swing the single track required over the Thames from its South bank for eight miles.

His Last Hope Realized.

From The Sentinel, Gosh, Montana.
In the first opening of Oklahoma to settlers in 1890 the Editor of this paper was among the many seekers after fortune who made the big face one fine day in April. During his traveling about and afterwards his camping upon his claim he encountered much bad water, which, together with the severe heat, gave him a very severe diarrhoea, which it seemed almost impossible to check, and along in June the case became so bad he expected to die. One day one of his neighbors brought him one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy as a last hope. A big dose was given him while he was rolling about on the ground in great agony, and in a few minutes the dose was repeated. The good effect of the medicine was soon noticed and within an hour the patient was taking his first sound sleep for a fortnight. That one little bottle worked a complete cure and he cannot help but feel grateful. The reason for bowel disorders being at hand suggests this item. For sale by Jas. J. Wood & Son, Druggists.

Ralph Crawford and John W. Carroll have been appointed Inspectors of Police of Cincinnati.

The weight of the average baby's brain at birth is a little more than three-fourths of a pound.

Bedsteads with alarm clocks as part of the headrail are being made for South London early risers.

It has been decided that aliens in British prisons are not to be taught any trade in the future.

A count of the unoccupied houses in London shows 40,690. That is one house in fifteen of the whole city.

Los Angeles claims to have a greater stretch of attractive ocean beach in its vicinity than any other American city.

During last year California produced twice as much gold as Alaska, and Colorado produced more than three times as much.

The greatest pumping plant in the world is one which draws 3,000,000 gallons of water a day 387 miles to the gold fields at Bulla Bulling, Australia.

The Cincinnati Industrial Bureau has arranged for the E. McGovern Tire-setting Machine Company, now of Lime Rock, Conn., to locate in Cincinnati.

Helen Keller, the blind girl of whom so much has been printed, has written "The Story of My Life," which Doubleday, Page & Co. of New York will publish.

Judge Robert D. Lilley of Hillsboro, O., once a prominent Democrat and Probate Judge from 1857 to 1860, was burned to death while trying to start a fire with coal oil.

By the action of the Board of Education foreign languages are barred from the Public Schools of New York City, excepting in the last year of the course, when German or French may be optional.

The immense numbers of oak staves used in the wine districts of Spain all come from the United States, and most of them from New Orleans. One cooperage concern in Andalusia buys 175,000,000 staves a year.

Ten cents' worth of wheat flour contains almost seven times as much protein and over ten times as much energy as ten cents' worth of cabbage. Thus a low-priced article is not necessarily a cheap source of nutrient.

Joseph Chamberlain, the Colonial Secretary, has begun a policy of protection for Great Britain, and there is reason to believe that he proposes to do it by extending such trade favors to the colonies as will embarrass United States trade.

The Grand Jury at Montgomery, Ala., has returned 36 indictments against white citizens of Coosa and Tallapoosa counties, charging peonage, or holding Negroes in servitude. J. W. Pace, arrested on a similar charge, was released on bond.

There is one physician to each 600 inhabitants in the United States; in cities it is 1 to 500. Death and increase of population make room for about 3,000 new doctors a year, but the 586 medical schools are turning out 5,000 a year, making a surplus of 2,000.

Mrs. Olga A. Becker, a bride of 17, has sued the Pennsylvania Railroad Company and Pullman Company in New York Courts for \$5,000 damages, claiming that on her wedding trip she was held a prisoner in the dressing room and insulted by the Negro Pullman porter.

The latest explosive shell has the greater part of its interior filled with lead, which, when fired, is melted by a burning composition, so that when the shell bursts the molten lead is scattered to a considerable distance, and the smallest particle causes a nasty wound.

The Tacoma for Cincinnati will pass down tonight.

The Keystone State will be up tonight for Wheeling.

The Henry M. Stanley for Charleston will pass up tonight.

The Government Lighthouse Tender Goldenrod has returned to Cincinnati from her semi-annual inspection of the lights on the Lower Ohio and tributaries.

The management of the Lee Line has scored another upward move in its effort to gain a place in the Cincinnati and Memphis trade. It is stated from an official source that the Lees will run the Peters Lee in that trade next season in conjunction with the Reese Lee.

Reports have it that the Sprague will be forced to lie at Cincinnati at least three months before her repairs can be completed. If she stays there that long she will miss the summer rises and will be forced to lie over until late in the fall, until sufficient water comes to allow of her safely floating.

Some of the Wiggins ferry engineers, who lost their licenses in consequence of the recent strike, have made statements to the Government Inspectors admitting that they did wrong and have applied for examination for new licenses. The Inspectors show a disposition in such cases to make the conditions as light as possible for them, and told those men to "go and sin no more."

The Board of Supervising Inspectors of Steam Vessels will meet at Washington City, and one of the items of interest that will be heard by it will be an appeal from river navigators asking that the rules and regulations governing ocean and lake navigation be separated from those governing river navigation. If this is acceded to there will be much rejoicing on the part of pilots, engineers and masters of steamers on these waters.

If the predictions of Prof. Marsh, the famed weather prophet of the North Ohio region, should prove to be correct, it would be well for owners of floating property, farms and orchards in this region to be getting ready for a "warm time" within the next few days. He says the month of June will be a hot one. Between the 8th and 15th a hot wave covering the entire country, followed by heavy rain, severe wind and lightning. Extremely heavy rain, washing away bridges, swelling streams and thus causing great loss in the Ohio Valley. Heavy storms of wind, rain and lightning along the Ohio river valley, at Pittsburgh and headwaters of the Ohio, and over the mountain districts, causing big rises. Between the 17th and 22nd heavy rains and high wind at headwaters of the Ohio river valley and throughout the Kanawha and New river districts and mountain regions of Pennsylvania and West Virginia. Sometimes, however, the predictions of Prof. Marsh, like those of the local prophets, do not materialize.

During excavations in the Forum at Rome a hollow trunk of a tree, containing the skeleton of a child and ten red and black funeral vases, was discovered.

A Serious Mistake.
E. C. DeWitt & Co. is the name of the firm who makes the genuine Witch Hazel Salve. DeWitt's is the Witch Hazel Salve that heals without leaving a scar. It is a serious mistake to use any other. DeWitt's Witch Hazel Salve cures blind, bleeding, itching and protruding piles, burns, bruises, eczema and all skin diseases. Sold by J. Jas. Wood & Son.

The Southern Railway Company will spend \$25,000,000 for betterments.

Tesla says that within another year he will be able to send wireless messages around the world.

NERVOUS DYSPESIA.
ITS CAUSE AND CURE.

Overwork any organ and it gives out—the stomach is no exception. Ask it to digest anything, everything, at any time in half the time required, and like an over-driven horse, it balks. Nature intended the stomach should have regular hours. A time to work, a time to rest—and when you break up this habit, you upset the whole arrangement. The stomach nerves become exhausted, the glands refuse to act; the food does not digest—lies heavy, ferments and repeats. There is pain, gas forms, bloating occurs, the heart becomes irregular and a nervous irritable feeling sets in. This is nervous dyspepsia and Dr. A. W. Chase's Nerve Pills is the cure.

Mr. J. L. Nicholson of No. 508 Limestone street, Maysville, Ky., says—"I was bothered with severe nervousness, sleeplessness, dizziness and indigestion. Hearing of Dr. A. W. Chase's Nerve Pills sold at Chenoweth's Drugstore I decided to try a box. As a result my nervous system is in fine condition. I sleep well and am no longer bothered with those distressing dizzy spells—my appetite and digestion are fine and I feel generally vigorous. I can't recommend Dr. A. W. Chase's Nerve Pills too highly."

See a box at dealers or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

Many a child has been fooled by the story of the pot of gold which is to be found just at the foot of the rainbow, and has started out to gather riches full of happy dreams.

Many a man and woman have been deceived by the tale that there was health to be found out beyond the sunset, and they have started out dreaming of a healthful future, never to be realized.

People who have tried change of climate in vain for the cure of weak lungs have been perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures deep-seated coughs, bronchitis, bleeding lungs, emaciation, and other conditions which, if neglected or unskillfully treated, find a fatal end in consumption.

"Last spring I had a severe attack of pneumonia which left me with a very bad cough, and also left my lungs in a very bad condition," writes John M. Russell, Esq., of Brent, Cherokee Nat., Ind. "I had no appetite and was so weak I could scarcely walk. My breast was all sore with running sores. I got two bottles of Dr. Pierce's Golden Medical Discovery, which I believe saved my life. I cannot express my gratitude to you. I am able now to do very good work."

Any substitute offered as "just as good" as "Golden Medical Discovery" is a shadow of that medicine. There are cures behind every claim made for the "Discovery," which no "just as good" medicine can show.

The People's Common Sense Medical Adviser, a book containing 1008 pages, is given away. Send 21 one-cent stamps for expense of mailing only, for the book in paper covers, or 31 stamps for the volume bound in cloth. Address Dr. R. V. Pierce, Buffalo, N. Y.
